

§ 618.8010(c)(3). The Agency believes that its evaluation of the proposal will be aided by public comment on issues raised by the proposal. Specifically, the FCA requests comments on the risks inherent in offering these services, such as the potential for conflicts of interest and liability or environmental concerns, particularly in regard to providing such services to borrowers with distressed loans. The Agency also requests comments on the potential benefits to farmers, how the provider ensures that services are provided to eligible entities, feasibility and appropriateness of such services for Farm Credit institutions, the impact of such services on the lending function, and any other pertinent issues. In addition, the FCA requests commenters to consider what Systemwide issues might be raised by a decision to authorize such services.

The FCA also requests commenters to propose how they believe identified concerns might be mitigated. Commenters should bear in mind that the identified concerns could also be addressed by the FCA's standard of conduct regulations, or by applicable State laws and regulations, licensing requirements, and industry ethical standards, or in appropriate circumstances, by requiring pertinent disclosure or anti-tying requirements for certain services. Additionally, internal controls could be adopted that limit the amount of risk taken on by an institution offering such services.

The FCA has concluded that some of the conflict of interest or liability concerns might be addressed by offering any or all of the services through a service corporation and requests comment on the following issues:

(a) What, if any, limits should there be on board structure or composition?

(b) If necessary, how should the amount of capital a bank can invest in the service corporation be limited?

(c) Are there any organizational or procedural constraints or limits that may be appropriate?

In its evaluation of the proposed services, the FCA will focus on systemic issues rather than on institution or program-specific factors. If the FCA authorizes the above-related services, any System bank or association may develop a program and subsequently offer the related service(s) to eligible recipients, subject to any special conditions or limitations imposed by the FCA. The Agency may, at the time of approval, impose such special conditions or limitations on any approved service as the FCA in its sole discretion may deem necessary or appropriate to ensure safety and soundness or compliance with law or

regulation. These programs would be subject to review during the examination process.

Dated: July 11, 1995.

The franchising authority shall provide notice of its decision to the cable system and shall provide public notice of its initial decision within seven days pursuant to local procedural rules for public notice. Operators and consumers may make an interlocutory appeal of the initial decision to the Commission

within 14 days of the initial decision. Operators shall provide notice to the franchise authorities of their decision whether or not to appeal to the Commission. Consumers shall provide notice to franchise authorities of their decision to appeal.
